DETAILED ACTION

1. Receipt of the amendment filed February 13, 2006 is acknowledged. Claims 1-6, 9-29 and 31 are pending in the application and are presented to be examined upon their merits. Upon further consideration the following rejection(s) is made.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-6 and 9-29 and 31 rejected under 35 U.S.C. 103(a) as being unpatentable over Walker (US 5,79,207) in view of Sheth (US 2001/0032170)

Regarding claims 1, 29 and 31, Walker teaches method of determining one or more matches among one or more bids submitted by one or more participants in an electronic network (see fig. 1, col. 10, lines 57-59); defining one or more alternatives via a computer for a least one or the bids (see "counter offer", col. 9, lines 45-51; defining one or more conditions via a computer amount one or more alternatives; an determining one or more combinations of said alternatives via a computer that satisfy said one or more conditions (see col. 16, lines 12-45).

Walker fails to disclose defining at least one first variable representing at least one of said one or more alternatives wherein said variable corresponds to the jth one of said ith one of the bids and determining at least one solution to said at least one satisfiability problem. Sheth discloses defining at least one first variable representing at least one of said one or more

Art Unit: 3624

alternatives wherein said variable corresponds to the jth one of said ith one of the bids and determining at least one solution to said at least one satisfiability problem (see Sheth, page 5, 0089-0090; and 0111-). It would have been obvious for one of ordinary skill in the art at the time of the invention to modify the teachings of Walker to include the teachings of Sheth to include one or more alternatives for the bids because it gives the buyer more choices for which a bid can be satisfied. Dependent claims 2-6 and 21-28 stand rejected from the previous office action mailed August 02 2005. Therefore, claims 1-6 and 9-29 and 31 remain rejected.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
